

AiPACK-6L

Institutional 2L ~ 6L Pouch Packing Machine
Suitable For HORECA Sector and Canteens
Capacity - 450 ~ 1200 Pouches / Hour

- Constant Heat Sealing Technology
- Low Operational Cost
- Increased Reliability
- High Production Efficiency

Applications

- Milk
- Curd
- Flavored Milk
- Buttermilk
- Homogenised Lassi
- Juice Drinks

Salient Features

- All Stainless Steel construction offers hygiene and food safety
- CE marked Automation Platform
- Servo Controlled Bag Length Control
- Pneumatically operated Sealing and Filling Mechanisms
- Production recipes settable through HMI
- Production data on HMI for analysis and MIS
- Advanced Constant heat sealing technology
- Built in UV sterilization for Film
- Compatible to In-place cleaning (CIP) systems

Optional Accessories

- Photomark Scanner
- Date Batch Coder
- Extended Legs
- Tray stand

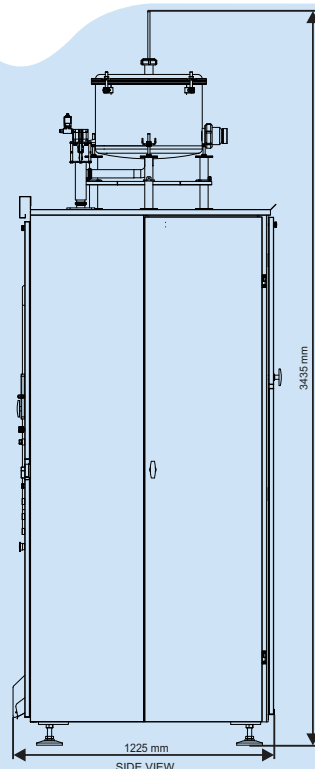

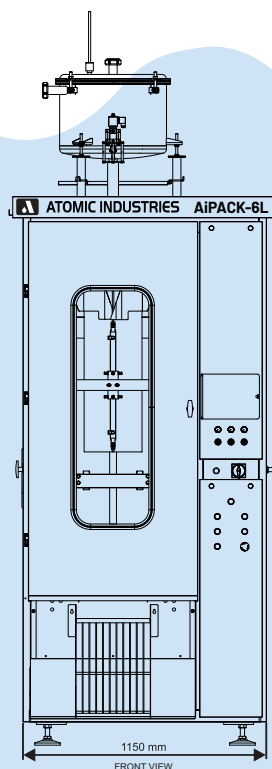

Technical Specifications

Machine Dimensions	1150mm (L) x 1225mm (W) x 3435mm (H)	Speed	Up to 450 pouches/hour for 6000 ml Up to 1200 pouches/hour for 2000ml
Pack Quantity Range	2000 ml to 6000 ml		
Accuracy	±0.3% ~ ± 0.5%		
Packaging Material	Co- extruded Heat Sealable LDPE/LLDPE of thickness as per regulatory norms.	Compressed Air	30 cubic meter/hr @ 6bar pressure
Film Roll Data	LFW 590 +2/-0 mm, Roll Dia. 300mm, Roll Wt.: 25 kg	Power	Stabilized AC 3phase 400V ±1%, 50Hz
Package Style	Center sealed pillow pouch	Power Consumption	1.5 KWH / Unit Approx.

Pouch Format

CSPP
6L

We believe in continuous improvement of machine technologies and keep on upgrading the machines.
The minor changes in machine Specifications, Dimensions and Photo shall be acceptable to you
